

OAMS 1.2.07 Release Bulletin

Release Date: August 6, 2014

This release bulletin provides information on the fixes and improvements to OAMS slated for release.

Note

- If you would like to view a history of previous changes and release bulletins, kindly refer to: <https://confluence.id.ubc.ca:8443/display/OAMSH/OAMS+Release+Bulletins>
- In order to ensure you are accessing all the latest updates to OAMS please clear your cache and browsing history in your internet browser (Instructions for how to do this in Chrome and Mozilla are attached).

What's changed?

| ID | Category | Description |
|-----------|----------------------|---|
| PROD-1506 | Bug fix | Corrects a bug that prevented the Advanced Search function from working after users performed a regular search. |
| PROD-1499 | Bug fix | Corrects a bug that prevented some users from being able to edit the "Title" and "Department" fields in their user profile. |
| PROD-1657 | Bug fix | Corrects an issue where in rare instances, emails being sent from the AA unit were not getting auto-matched when the PoC it was attached to has been deleted. |
| PROD-1487 | Bug fix | Corrects a bug that may have prevented some users from editing advising records if the 'Date Format' in their Locale Settings was set to '2010.12.23.' |
| PROD-1639 | Configuration change | The session lifetime for logins has been changed from 2 hours to 8 hours. Instead of users being required to re-authenticate every 2 hours (regardless of how much activity), users will be asked to re-authenticate every 8 hours. |

Other issues resolved

| ID | Category | Description |
|-----------|-------------------|--|
| PROD-1626 | Data centre issue | On June 4 th , 2014 some users reported a slow response time when logging in to OAMS and were unable to load student records. This was due to a problem with one of the cables at the Life Sciences Data Centre where the OAMS server is located, and the issue was resolved on the same day. |

Known bugs and requests

The following list includes items that the OAMS team has identified but has not yet implemented. The team appreciates your patience as we continue assessing defects and targeting fixes and enhancements for future releases.

| ID | Category | Description |
|-----------|-------------|--|
| PROD-1490 | Enhancement | Inability to delete attachment(s) from drafted email |
| PROD-1493 | Enhancement | Extra space in linkable 'Student' column on Watchlist page |
| PROD-1478 | Enhancement | Inconsistency in the bcc-ed emails from SISC to multiple recipients |
| PROD-1501 | Enhancement | Cannot change sort order of "Date Sent" column in Emails |
| PROD-1494 | Enhancement | Wrong unit emails displayed after changing unit in Emails browser |
| PROD-1505 | Enhancement | Watchlist Notification dashlet has a blank column heading which lists the notification message details |
| PROD-1495 | Enhancement | Email address is not validated in Advanced Search |
| PROD-1503 | Enhancement | The edited PoC Status does not appear on the PoC Details screen |
| PROD-1489 | Enhancement | Second Column in Dashlets cannot be found if you delete all your dashlets from the column |
| PROD-1498 | Enhancement | Additional tool bar appears in the PoC Details page |
| PROD-1484 | Enhancement | A blank field is available in the "My Watchlist" dashlet configuration window |
| PROD-1500 | Enhancement | Document names are inconsistent in display panels |
| PROD-1515 | Enhancement | OAMS scheduled reports failing for 4 advising units |

How to send bug/change requests

Please visit <http://support.as.it.ubc.ca/SupportRequest> and complete the ticketing form. SIS Support will review defect reports and change requests, prioritizing and assigning them for resolution, as appropriate.

The most current version of the OAMS online user manual with all the up to date changes is now available at:
